

**1854 Ceded Territory
2017 Tullibee Netting**

Band members will be able to set nets for inland cisco (tullibee) again in 2017. Netting will begin on October 1st in the 1854 Ceded Territory on lakes with cisco, except on Lake Vermilion. Lake Vermilion will open on October 21st. Netting on all lakes will continue until ice-up conditions. Nets will be required to conform to provisions spelled out in the 1854 Conservation Code.

Band members will be limited to five (5) nets each. There will be no netting allowed in Bois Forte's portion of Lake Vermilion (maps available at RMD).

A list of available lakes is at the Resource Management Division Office. Additional lakes will be considered on a case-by-case basis by RMD staff.

Fall netting permits are available at RMD, during normal work hours (M – F, 8:00 AM to 4:30 PM). Band members are required to keep a record of fishing activities and return the completed logbook to the Resource Management Division.

Please check out www.fdlrez.com/RM/ for news at the Resource Management Division website. In addition, call 878-7101 with questions.
